

Group 1 – Team Agreement

Communication:

WhatsApp group chat as well as email will be the primary forms of communication between group members.

When to meet:

Monday Afternoon, subject to availability.

Splitting up work:

People	Role	Main responsibilities
Maeve, Maxine	Data manager (1-2 people)	Downloads and documents the raw data, writes the data-cleaning script, maintains a data dictionary
Amber, Maeve, Amanda	Analysis lead (1-2 people)	Leads the statistical models, checks assumptions, keeps analysis scripts tidy
Shane, Maxine	Visualization lead (1-2 people)	Makes figures consistent and publication quality, prepares slides
Shane, Amber, Amanda	Literature and writing lead (1-2 people)	Leads the literature review, reference list and editing of the report

What to do if someone is not contributing:

Talk to the individual first, then if things escalate, email Joey. Clarify expected deadlines by which all group members are expected to have contributed so that there is a clear boundary of when we will communicate with the teaching team.
